

Another New Horizons Project for BETTAquip

BETTAquip has recently completed another kitchen installation for New Horizons Community Enterprise at the Stan Ball Centre in Walsall.

The Centre is part of the Abbots Street Development where a two storey general purpose office accommodation for Teaching Primary Care Trust is also located. The new centre will provide a range of facilities for associated services for people over 50 in the New Deal area and will be managed by Bloxwich Community Partnership.

The new building is positioned to maximise the views of the canal frontage with the curve of the canal and green nature of the site making it unusual and secluded for a residential area.

Following the success of previous projects for New Deal, BETTAquip's design team were presented with a brief to develop a kitchen, servery and bar to supply three adjacent halls, a bistro, a multi purpose hall and a lounge. The facility also included teaching/seminar rooms, office space and learning disability activity rooms.

Terrace overlooking the Wyrley & Essington canal

The kitchen was equipped with Electrolux Professional equipment including Elco 700HP cooking suite, dishwashing and refrigeration. A range of stainless steel fabricated items provided preparation and storage areas.

The servery and bar area included a stainless steel front counter and bar units with speed rail, ice bins, a bottle bin, glasswasher and water boiler. There was also a shop fitted back bar with a mirrored glazed display, bottle coolers and till point.

To discuss how BETTAquip can improve your catering facilities call 0845 22 63635 or email info@bettaquip.com. Alternatively further information can be found at the company's website www.bettaquip.com.
