

A Multi-level and Fast Track Installation for BETTAquip

As part of an extensive regeneration of Sheffield's City Centre, a high quality and vibrant business facility providing new office accommodation for the Department for Children, Schools and Families has been built alongside modern living spaces.

Having successfully completed other projects with Morgan Lovell, the interior design and fit-out company, BETTAquip was awarded the contract to supply and install the catering equipment to the Café on Level 7 and the Pantry on Level 3.

The Café had a curved main counter and a condiments/ recycling counter which were located in the centre of the open space area to allow visual connections between the Café and Business Lounge.

The finishes to the counters were chosen to compliment the colour scheme of the overall area which has a local landscape theme with a graphic image of the Derbyshire Dales on glass panels behind the seating area.

Adjacent to the counters, there is a tray pick-up unit, chilled display units and a support kitchen providing areas for preparation, cooking and wash up.

The Pantry on Level 3 was equipped with racking, stainless steel tabling and sinks, under counter dishwasher and a bulk brewer.

The project was another fast track scheme completed to meet challenging deadlines and without compromising quality.

To discuss how BETTAquip can improve your catering facilities call 0845 22 63635 or email info@bettaquip.com. Alternatively further information can be found at the company's website www.bettaquip.com.
