

Fast Track Project puts BETTAquip in Pole Position

Information technology solutions company Autonomy is a name synonymous with Formula One motor racing and Premiership football.

The company, which is the second largest software firm in Europe, has recently invested in new staff dining facilities at their Cambridge Head Office.

Kitchen and servery area at Autonomy's head office

BETTAquip was awarded the contract to design and supply the new kitchen and servery areas. The allocated space for the new staff dining area had previously been used as an office space prior to the transformation. The whole project had to be completed and be ready to serve food within just four weeks from the order date.

Elizabeth Day, Facilities Manager at Autonomy commented: *"Andy and his team worked a number of minor miracles to design and install such a wonderful kitchen and servery area in just four weeks. We are delighted with the completed work and I would certainly be happy to recommend and use BETTAquip in the future."*

You will find the Autonomy brand on the Mercedes Formula One cars and on the Tottenham Hotspur football shirts.

To discuss how BETTAquip can improve your catering facilities call 0845 22 63635 or email info@bettaquip.com. Alternatively further information can be found at the company's website www.bettaquip.com.
